Introduction to website privacy and compliance

Global privacy legislation map

Improper data handling is a top reason for customer churn

Of consumers state that they would turn their back on a brand which is using consumer data without consent

Data source: Statista Why do consumers break up with brands

Enforcement increases

France: The cookies transition period will end in a few days - starting April 1st, organizations must comply with the CNIL's revised guidelines on cookies and trackers!

DLA Piper

Ny Quickguide til brugen af cookies

Publiceret 12-02-2021

Rådet for Digital Sikkerhed, Erhvervsstyrelsen og Datatilsynet udgiver nu sammen en Quickguide til brugen af cookies. Quickguiden kan bruges som tjekliste til organisationer, som sætter cookies, eller som skal have dialog med deres samarbejdspartnere om betingelserne for at der sættes cookies.

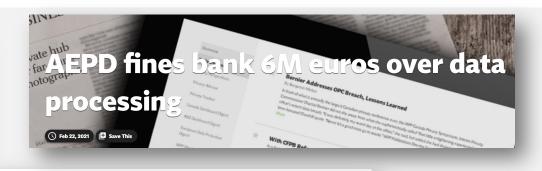

OME > DATA PRIVACY > GERMANY PUBLISHES NEW DRAFT RULES FOR COOKIES AND SIMILAR TECHNOLOGIES

Germany Publishes New Draft Rules for Cookies and Similar Technologies

By Moritz Hüsch, Kristof Van Quathem, Ulrike Elteste and Anna Oberschelp de Meneses on January 27, 2021

POSTED IN ADVERTISING & MARKETING, DATA PRIVACY, GDPR, INTERNATIONAL

12 March 2021

noyb

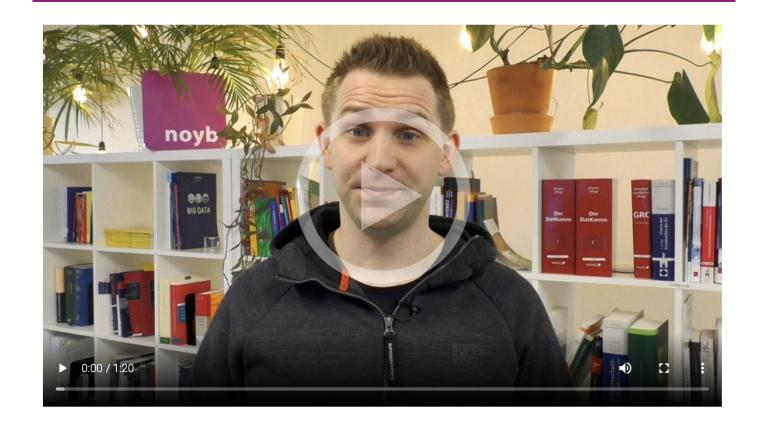

"Many companies ignore the stringent privacy laws in Europe. This is possible, because it is too complicated and expensive for individual users to claim their rights. noyb closes the gap between law and the reality by collectively enforcing your rights, so that your rights become reality."

Max Schrems

Honorary Chairman, noyb

Website tracking technologies

Cookies

First or third party cookies are small files which are located on a user's computer and contain information about the user and carries the information from one visit to the next.

localStorage

localStorage is a way to store data on the client's computer. It allows the saving of key/value pairs in a web browser and it stores data with no expiration date.

Trust Token

Trust tokens aim to connect a user between two separate sites while not revealing any personally identifying information about them.

FLoC

Federated Learning of Cohorts uses machine learning algorithms to analyze user data and then create a group of thousands of people based off of the sites that an individual visits.

Tracking technologies are constantly evolving, but consent is here to stay

Criteria for valid consent according to GDPR

Freely

Consent must be given freely, access must be possible without consent.

Informed

All relevant information must be given at the point of providing consent.

Granular

The purpose of the data collection must be granular. A general consent is not valid.

Explicit

Consent must be given explicitly e.g. through a click or other activity; implicit consent is not valid.

In Advance

Technologies not covered by legitimate interest should only be loaded if consent is given.

Easy to withdraw

Consent should be as easy to withdraw as it is to give.

The website must be able to prove that the user has given consent and that the consent meets the requirements for valid consent.

Digital compliance affects key business functions

Ability to reach prospects, measure results from advertising investment and report on ROI.

Legal & Compliance

Compliance with GDPR, ePR, CCPA and other existing and upcoming legislations, and protection against fines.

IT & Website Management

Strengthening data integrity by easily auditing, reporting and documenting on cookies and trackers.

Respecting the privacy of the website visitors

Why should businesses care?

Protect brand reputation and build trust with website visitors

Online brand reputation is what consumers and users are looking at before purchasing from a business or interacting with a brand.

Protection from fines and violations

Fines can be up to 20% of annual revenue.

Why Cookiebot CMP?

Cookiebot[™] – A global platform for privacy protection and compliance

Global Community

450,000+

Why Cookiebot CMP

Easy implementation and automated ongoing maintenance

- Implementation in two simple steps.
- Powerful patent-pending scanning solution that automatically detects, blocks and categorizes all cookies and tracking scripts with no extra effort required.
- Dynamic updates to the consent banner and cookie declaration with any newly discovered cookies and trackers identified by regular scheduled scans.
- Supporting the latest innovations in this space through strategic partnerships.

Effortless cookie compliance with the major privacy laws

- Compliance with the major data privacy laws like GDPR/ePrivacy, CCPA, POPIA, LGPD and many more.
- Powerful patent-pending scanning solution that detects 63% more cookies and trackers than any other solution in the market.
- Extensive cookies and trackers repository
 We recognize & categorize 81% more
 cookies & trackers than any other
 solution.
- Fully customizable consent capturing banner.

Competitive and transparent pricing

- Competitive and fair pricing model that is based on the number of subpages of your website. Starting from 100+ subpages per domain for €9 per month.
- Ease of adoption through a free 30day trial including premium features with no strings attached.
- No hidden fees with low commitment.
- Easy to forecast.

Integrations

Cookiebot CMP solution

Cookiebot Manager

Supported in 6 languages:

English

French

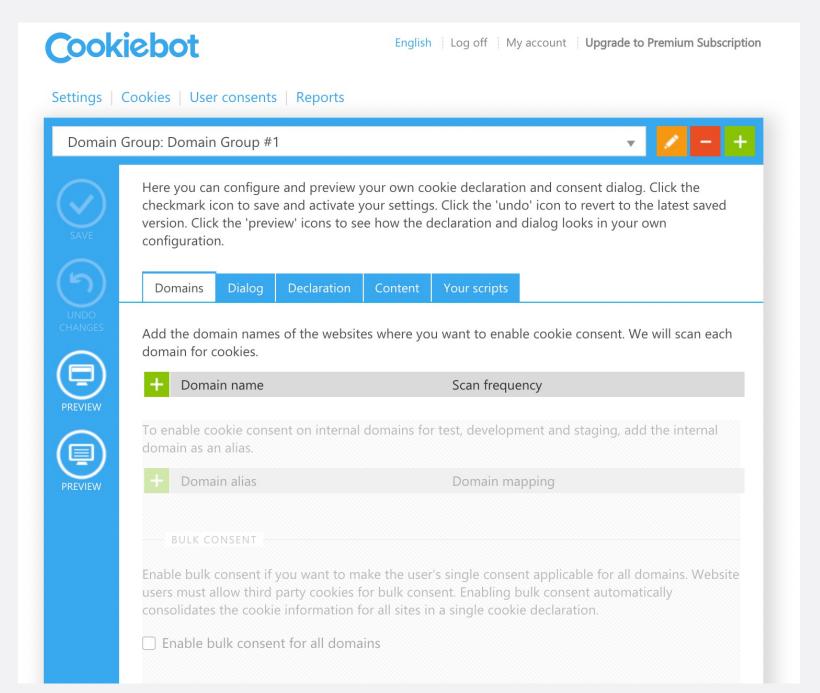

German

Italian

Spanish

Danish

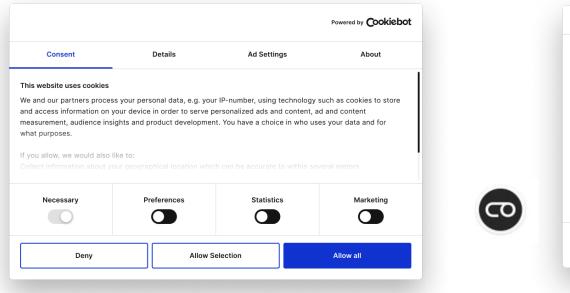

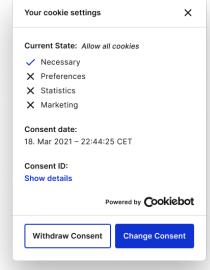

Fully customizable cookie consent banner

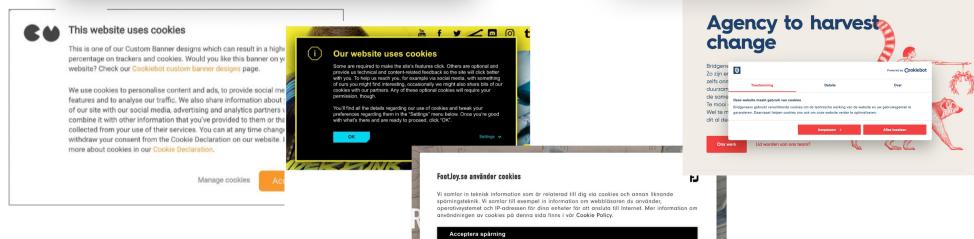

Optimize your opt-in rates while still obtaining valid consents and respecting your website users' right to privacy.

Standard banner & widget

Customized banner

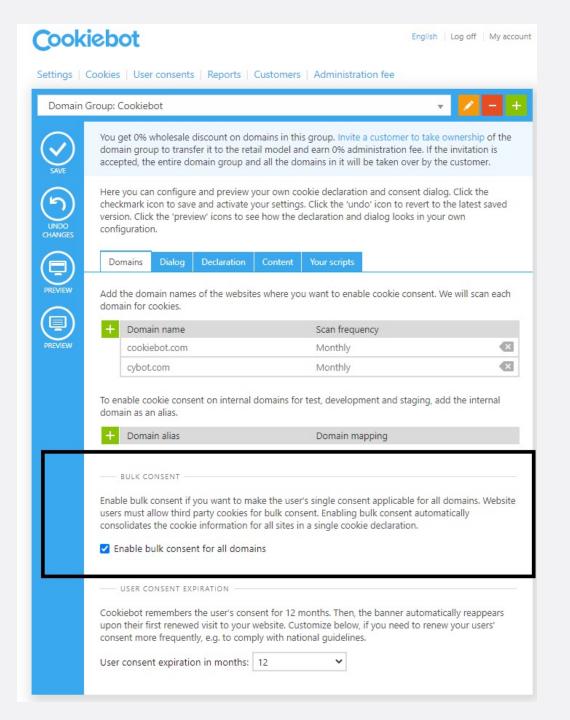

Hantera spårning

Cross domain consent

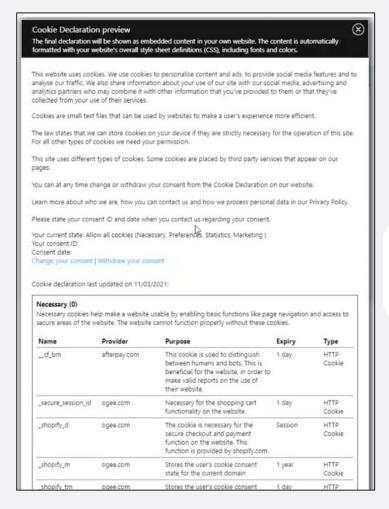

It enables you to make single users' consent applicable across all your domains.

Full website user transparency

Ready to use cookie declaration

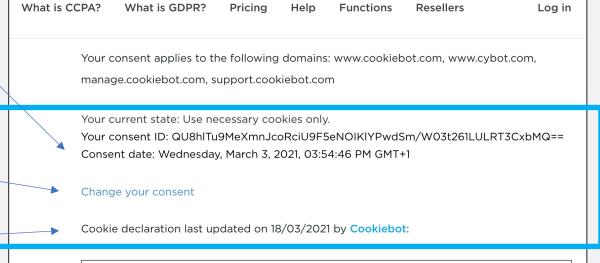

Transparency for your end users

2. Users can amend their prior given consent at any time

3. Information about the latest update

Necessary (33)

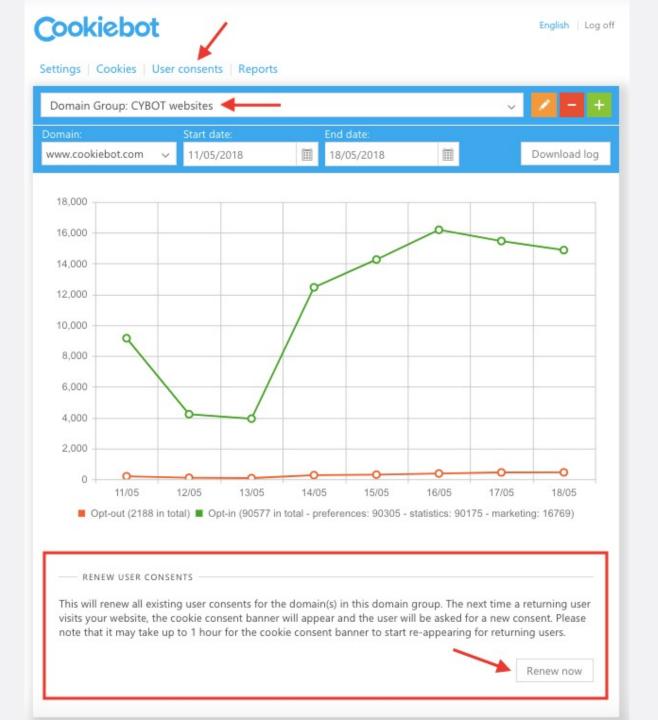

Necessary cookies help make a website usable by enabling basic functions like page navigation and access to secure areas of the website. The website cannot function properly without these cookies.

User consent overview over time

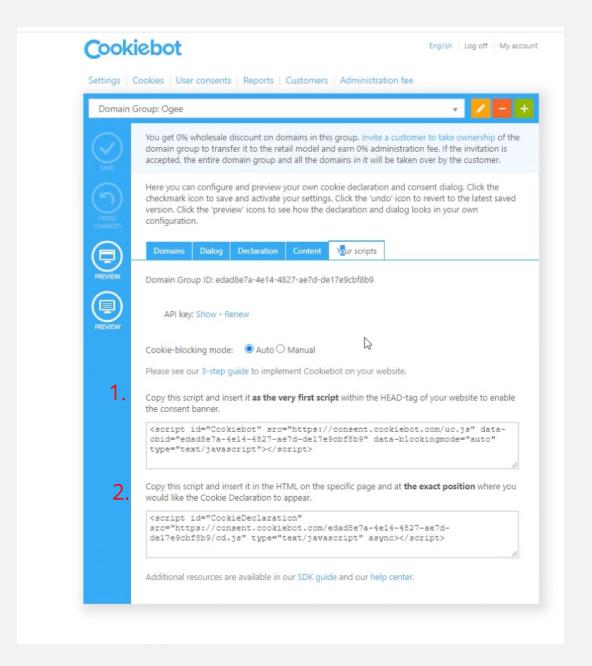

Detailed overview of the consent overtime with a downloadable CVS log

Compliance in two steps

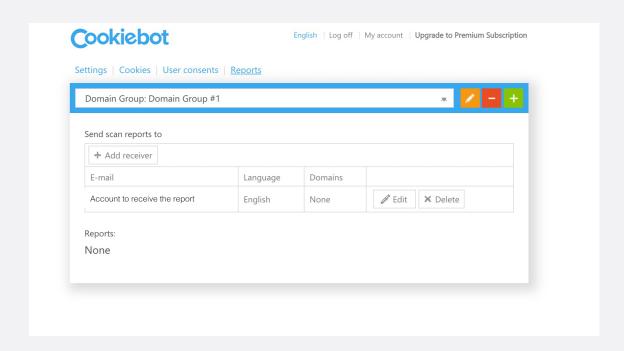

- 1. Add the banner script to the HEAD-tag of your website
- 2. Add the cookie declaration script

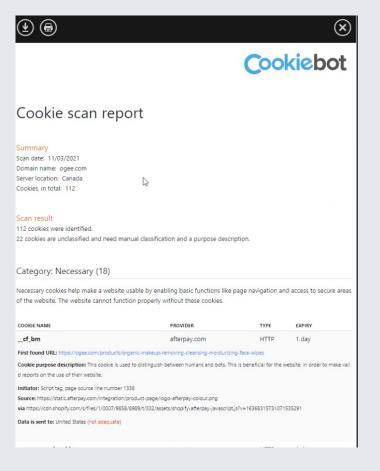

Monthly scans and reports

Detailed scan reports, consent statistics and logs are available at any time in the Manager user interface.

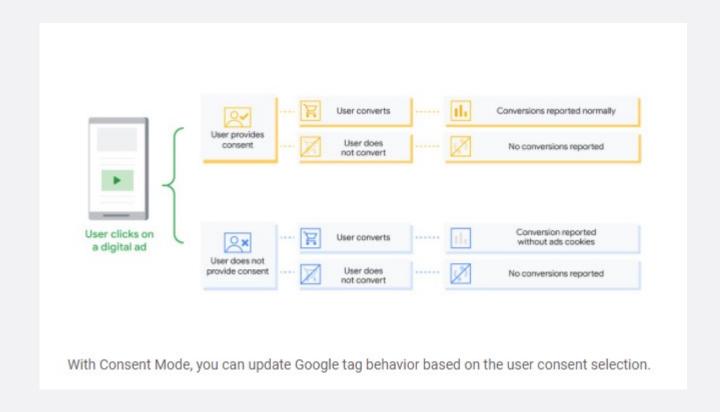

Google Consent Mode integration

Measure conversions while respecting user consent choices. Receive vital marketing insights and analytics data even if your website visitors choose to opt out of cookies in a fully GDPR compliant way.
